SOOTHSAYER  
"To Be A Real Terrorist"  
('86 Demo)

An excellent fusion of Sacrifice and Kreator with a bit of hardcore thrown in. I'm proud to say that this band is Canadian and are from Quebec. When I said they sounded like Sacrifice and Kreator I don't want you to get the idea that they are simply ripping these bands off because there not. Soothsayer have their own sound. Give a listen to the hardcore influenced "Kill Oppression" and the excellent "Troops Of Hate" for Soothsayer at their best. All thrashers should give this band their attention. You can get the tape, shirts, buttons, etc. at the below address. The demo costs \$5.00.

BIRD OF PREY  
"Tales From The Crypt"  
('87 Demo)

This is a pretty cool demo. The production isn't of the highest quality but it's good enough that you can actually listen to it, without wanting to turn it off. Out of the 5 tracks, my favourites are probably "King Of Night" and "Play To Kill". I didn't get a price so you'll have to write and ask and I also didn't get a list of the guys in the band. So I couldn't tell you who does what. Get it and see what you think.

MALHAVOC  
"Age Of Dark Renaissance"  
('86 Demo)

When I first heard this I thought it was crap but now I think it's great. I still can't get into the vocals. There's 9 trackson offer here and the best ones are probably "Dunwich Horror", "Attack From The Sepulcher", and "Fey". Fantastic Doom/Thrash metal, these guys will certainly be able to compete with Frost in the very near future when their debut album is supposed to be released on Diabolic Force Records. I can hardly wait. I don't know if this is still available or not so write to the band and ask.
